PCIe Family

Ang ibig sabihin ng PCIe (x16) ay number of lanes. Nakadepende sa number of lanes yung pwersa ng slot. So kung plano mo magsalpak ng GPU, kailangan ng gpu ng malakasang PCIe Slot.

PCIe x16 (16 number of lanes)

PCIe x8 (8 number of lanes)

PCIe x4 (4 number of lanes)

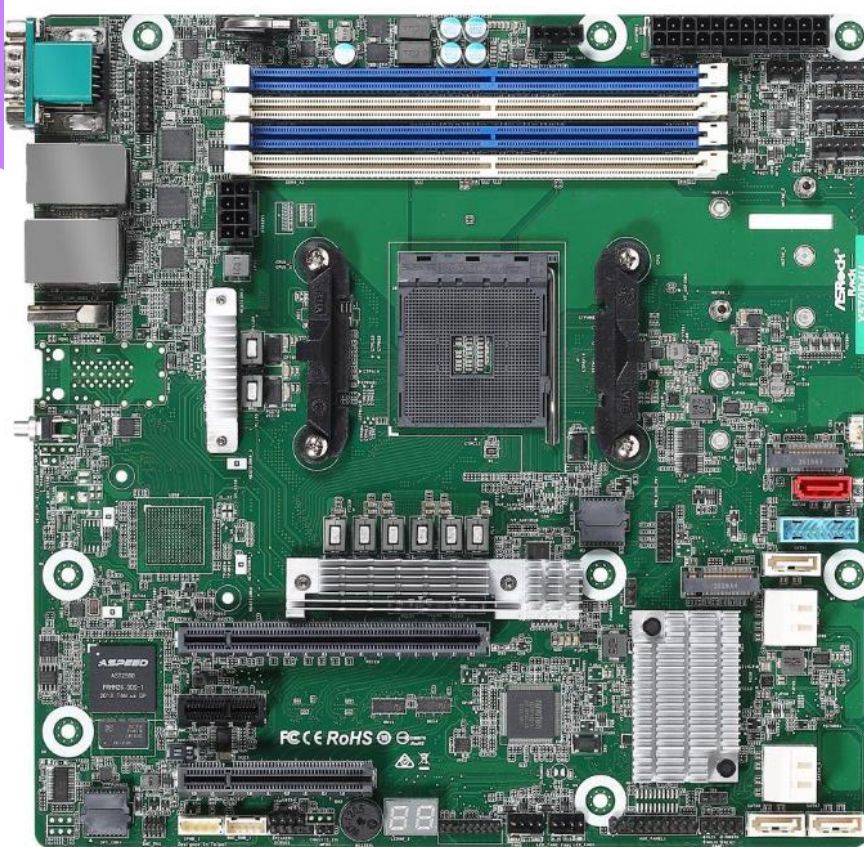

PCIe x1 (1 number of lanes)

Motherboard that shows each type of PCIe
